## How To Perform a Basic Search

### • Owner Search

Use this search option to locate properties with a known owner name.

1. Type the **Last Name First Name** or a part of into the Search by Owner box.
2. Do not use single or double quotes in your input. Instead of **O'Neil** you should key in **ONeil**.
3. Be as specific as you can to improve the possibility of finding the property you are searching for.
4. If an exact match is not found, up to 2500 search results may be returned.
5. Use the \* as a wild card to match any string of characters, for example:

Type	Results
Smith	Smith
Frank*	Frank, Franklin, Franken, Frankel, etc.
B*o*ski	Bojarski, Bronowski, Bukowski, etc.

## How To Perform a Basic Search

### • Address Search

Use this search option to locate properties using a street number, name or direction.

1. For better results, do not include a street suffix.
2. Be as specific as you can to improve the possibility of finding the property you are searching for.
3. If an exact match is not found, up to 2500 search results may be returned.
4. Use the \* as a wild card to match any string of characters (when unsure of spelling or to return all results on a particular street). A wild card is assumed at the end on any string of characters. For Example:

Type	Results
373 S High St	373 S High St
*High	All addresses on a street ex. North and South with the name High:
S* High St	All addresses on South High St

## How To Perform an Advanced Search

### • Advanced Search

Use this option to perform searches with multiple criteria (at least one criterion must be selected).

1. In the **Criteria** drop-down box, select the desired criteria you want to search on.
2. Once selected, a field(s) will appear below based on what you have chosen. You can enter your wording, dates, numbers, etc. Then click the **Add button**.
3. The criteria will appear in the **Current Search Criteria** box to the right.
4. Select another criteria item, enter a value and repeat until you have entered what you need to build a multi-criteria search.
5. Verify whether you entered the information correctly. If not, select the item in the Current search criteria box that you need to change, then click the **Edit** button to make your corrections. You **MUST** click on the **Add** button again to make the change effective.
6. If needed, use the **Remove** button to delete criteria.
7. For multiple criteria search, enter values separated by a comma and without spaces (zip code enter: 43215, 43205, 43219).

The screenshot shows the 'Advanced' search interface. At the top, there is a 'Group' dropdown set to '1 - Residential' and a 'Criteria' dropdown set to 'Sales Date'. A red callout '1' points to the 'Criteria' dropdown. Below this, there are 'From' and 'To' date fields with calendar icons. The 'From' field contains '01/01/2016' and the 'To' field contains '04/01/2016'. A red callout '2' points to the 'From' field. Below these fields is the text 'Please use MM/DD/YYYY'. To the right, there is a 'Current search criteria' box containing the text 'Sales Date:01/01/2016~04/01/2016'. A red callout '3' points to the 'Add' button below the 'From' field. A red callout 'RESULT' points to the 'Current search criteria' box. At the bottom, there are buttons for 'Add', 'Edit', 'Remove', 'Remove All', and 'Save/Load'.

### Multiple zip codes Results:

This search produces a list of all parcels that are within the entered zip code(s), have a year built between 2000 & 2005 and have square feet of 1500 to 2000. This will include all residential and commercial parcels.

If you do not select “**Style**” or “**Land Use Code**” to narrow your search to a specific type of property, like residential or commercial, all other criteria will be generic to land or building use.

“**Style**” – Lists specific types of buildings within the selected category of commercial or residential.

“**Land Use Code**” – Lists the predominate use of the property. Property may be a mixed use.

## How To Perform a Search

### • Map Search

Use any of these search options to locate properties with a known location or Parcel ID.

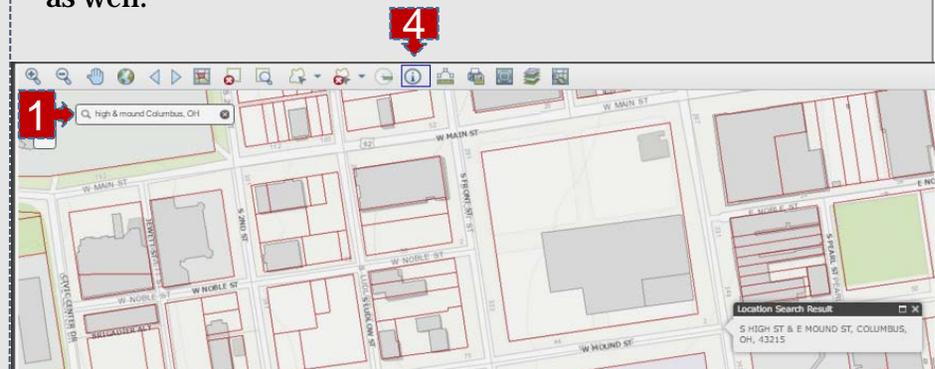

**Intersection Search:** Allows user to enter two street names where intersection is known. This method is useful in locating a property when the general location is known, but not the address, owner name or Parcel ID.

Type	Results
Broad & 3rd Columbus OH	Broad St & Third St Columbus
E Broad and S Fourth St. 43215	E Broad St and South Fourth St. 43215
North High at Dublin Granville Worthington	North High St at Dublin Granville Rd. Worthington
Easton Way @ Easton Sq. 43219	Easton Way @ Easton Sq. 43219

### Intersection Search:

1. Enter two street names where an intersection is known. (High & Mound)
2. Must enter the City (Columbus) or the Zip Code.
3. The user can navigate to a nearby property.
4. Use the **Identify Tool** to find information on specific properties.

**Note:** This search can be performed from the search menu as well.

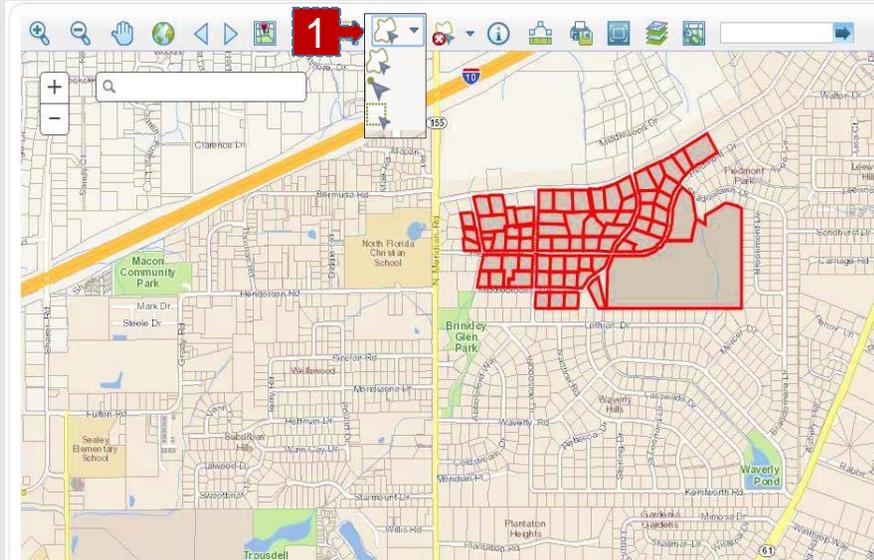

# FRANKLIN COUNTY AUDITOR'S OFFICE

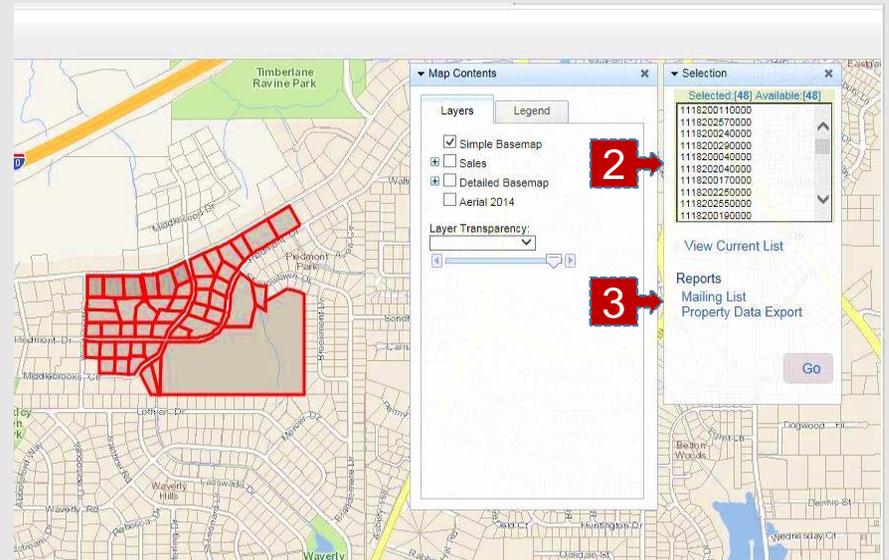

## How To Perform a Search

### Freehand Select:

1. **Freehand Select:** Allows user to draw a shape around a group of properties to include in a list.
2. Select one of five options: freehand, point, box, polygon, or line. **Freehand** allows the user to draw a line across the parcels you want to select. **Point** allows the user to click each property to select. **Box** allows the user to draw a box around the parcels intended to select. Click and hold to start and let go to finish. **Polygon** allows the user to select parcels within a unique shape. **Line** allows the user to select parcels along a designated line.
3. Each parcel will be highlighted and added to the selection list.

4. The selection list allows the user to view data about each parcel or create reports.

## How To View Property Details

### • Navigating Search Results

Your search results may include one, five, ten or hundreds of property records. Before you open a property record to review it in detail, you can optionally navigate to one that is of interest to you in the results list, then select and view it first. This can save you considerable time if your search results are large. In addition, after viewing record details, you can return to this list at any time to select another record. To view record details you have several options.

1. Click the row in the Results grid for the property you wish to view in more detail.
2. Results display 25 per page, this indicates the total number of properties in this result set.
3. Selection Manager, provides several options to select or deselect properties in the Results grid.
4. Provides a printable summary of the Results grid.
5. Displays total number of pages this search returned. You can select a page number or click the next/previous arrows to navigate.

Total found: 3442 records, displayed: 2500. Please refine your search.

## How To View Property Details

- **Browsing Property Details**

Once you perform a desired search, you may view details about any of the properties in the Results grid. Select a property from your search results to view property record details. A Summary page opens with various details about the given parcel (Owner, Location, Sales, Certified Values, etc.).

1. **Menu Options:** on the left, provide additional record details (Addresses, Owners, Building characteristics, Maps, Pictometry, etc.). Click any category to navigate to that level of detail.
2. **Record Navigation:** on the right, allows you to view other properties from your search results. Click the arrows to view the next or previous record in the list. You may also return to your search results by clicking "Return to Search Results".
